NATIONALTE Optics employee EOT people. Many of whom cross the bridge heading south and turn left onto Summit in front of Spednuts. Keeping that option open is very important to our business.

Thank you,

Consider making the road by Ferguson, Beck-Cohen and Old Avon one-way traffic to flow truck traffic thru the area. There is no way two way tractor trailer traffic will work on those roads. Tractor Trailers come into National Optronics daily and when exiting will clash with incoming Tractor Trailers for all the businesses in the area from Ferguson through National Optronics.
